

Terms of Use & Liability Agreement

Version: v1 | Date: June 30, 2026

IMPORTANT NOTICE: PLEASE READ THIS CONTRACT CAREFULLY. BY DOWNLOADING, INSTALLING, RUNNING, OR USING THE ZENITH APPLICATION OR WEBSITE, YOU AGREE TO BE BOUND BY ALL TERMS AND CONDITIONS DETAILED BELOW. IF YOU DO NOT AGREE, YOU MUST IMMEDIATELY UNINSTALL AND DISCONTINUE ALL USE.

1. Binding Legal Agreement & Project Nature

This Terms of Use & Liability Agreement (the "Agreement") constitutes a legally binding contract between the end user ("User", "you") and the developers, builders, and contributors of the Zenith open-source application ("Developer", "we"). This Agreement governs your access to, installation of, and use of the Zenith application, software code, builds, and associated web pages.

Project Nature: Zenith is a personal hobby project created purely out of curiosity, interest in motorcycle systems integration, and hobby development. It is developed and maintained in the contributors' spare time as an independent project, offered to the public for educational and utility purposes.

2. Assumption of Risk & Safety Warning

Operating a motorcycle involves inherent hazards and dangers. By using this software, you explicitly acknowledge and assume all such risks. You agree that you will not interact with the application, phone, or motorcycle console controls while the vehicle is in motion. All destination setup, parameter adjustments, and console configurations must be completed when the vehicle is safely parked and turned off. The User agrees to prioritize active road conditions, local traffic laws, and visual judgment over any routing directions provided by the application.

3. Absolute Limitation of Liability (Bodily Injury & Death)

To the maximum extent permitted by applicable law, the Developer holds absolutely no liability for any physical injury, bodily harm, accidents, traffic violations, collision occurrences, or fatalities resulting directly or indirectly from the use, interpretation, or installation of the application.

IN NO EVENT SHALL THE DEVELOPERS, CONTRIBUTORS, OR DISTRIBUTORS BE LIABLE FOR ANY DAMAGES WHATSOEVER, INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL, OR EXEMPLARY DAMAGES, INJURIES, DISABILITIES, OR DEATH OCCURRING IN CONNECTION WITH THE PERFORMANCE, FAILURE, OR USE OF THIS ROUTING AND DASH MIRRORING APPLICATION.

4. Property Damage & Warranty Exclusions

Zenith utilizes an alternative, unofficial communication protocol to stream screen capture feeds to the motorcycle's console hardware. These handshakes and APIs are unofficial, independent, and not supported by any motorcycle manufacturing corporation. By using this software, you agree to the following:

A. Vehicle Hardware & Warranty: The Developer is not responsible for any damage, malfunction, electrical faults, fuse breaks, firmware corruption, or hardware deterioration of the motorcycle (including but not limited to the Tripper TFT dashboard console, display screen, handlebar controls, wiring harnesses, or alternator systems). Additionally, you assume full responsibility for any rejected warranty claims by the manufacturer arising from the connection or use of unofficial diagnostic or streaming software.

B. Mobile Device Integrity: Projection streaming requires background hardware video encoding and Wi-Fi transmissions which may increase device temperatures. The Developer is not responsible for mobile device damage, battery swelling, thermal overheating shutdown, memory corruption, or screen burn-in occurring during streaming sessions.

5. Disclaimer of Routing Accuracy

The map data and navigation routing are generated by third-party database servers (OSRM/OpenFreeMap) and local GPS hardware. The Developer makes no guarantees regarding the accuracy, completeness, timeliness, or safety of any generated routes, path lines, maneuver directions, ETA estimates, speed calculations, or offline cached maps. User agrees to verify paths independently before embarking on journeys.

6. Indemnification

You agree to indemnify, defend, and hold harmless the Developers, project contributors, and organizers from and against any and all claims, demands, liabilities, expenses, damages, or costs (including reasonable attorneys' fees) arising out of your violation of this Agreement, your use of the application, or your infringement of third-party road safety, intellectual property, or regulatory laws.

7. Governing Law & Severability

If any provision of this Agreement is found to be invalid, void, or unenforceable by a court of competent jurisdiction, that provision shall be limited or eliminated to the minimum extent necessary, and the remaining provisions of the Agreement shall remain in full force and effect.

8. Trademark Notice & Disclaimers

All product names, logos, brands, trademarks, and registered trademarks (including but not limited to "Royal Enfield", "Tripper", and "Himalayan") are property of their respective owners. All company, product, and service names used on this website and in the Zenith application are for identification, description, and interoperability purposes only. Use of these names, trademarks, and brands does not imply endorsement, affiliation, or sponsorship by their respective holders.
